

Agri-Lending

Agri-Lending

Agri lending requires a full understanding of the seasonal challenges that are faced by rural communities, that directly affect cash flows and the peak cycle of a lending facility. Multiple industries require a specialist skill set and knowledge to develop finance strategies for farmers of wheat, livestock and aquaculture through to vineyards and service industries.

With 38 years experience in agriculture finance strategies, MSM Commercial is well placed to assist with:

- Loans to farmers secured against rural properties
- Stock loans to increase livestock holdings
- Equipment leasing
- Specialised finance for niche funding requirements
- Private investment options for selected assets
